# ABOUT PRO SPORTS GROUP

Let Pro Sports Group be your source for all levels of football protective equipment. From our Omega Youth Series to our custom, made to order, Pro Level Series. We have been designing and manufacturing football protective gear for over 30 years. All of our Custom Alpha Series through our CL Series are made at our facility in Jacksonville Florida, USA. That is something we are very proud of. We will continue to build one of the highest quality shoulder pads available along with high quality shoulder pad accessories. We believe that the utilization of Air Management cushion systems offers the very best in protective capability. That is why we use Air Management throughout our entire line. We also believe that being “Made in the USA” means proven quality you can count on. Call us today, no order is too small to discuss, and get recommendations from over 30 years experience .

*Pro Sports Group Facility - Jacksonville, FL, USA*

# PRO SPORTS GROUP

## What is the Performance Fit Option?

The Performance Fit option takes the main body cushion of ½" Open Cell Air Management and replaces it with ¼" Poron High Impact Protection. The top shoulder of the main body cushion has an added

½" air management cushion. The results are the best of both foams, creating a lightweight, high-impact absorbing Performance Fit shoulder pad.

### Performance Fit Option

- 1/4" Poron Main Body Cushion.
- ½" Air Management cushion integrated into the shoulder area.
- Memory Foam with sewn Performance Stitching.

## What is the Pro-Motion Option?

The Pro Motion option removes the lockdown back straps and locked in front closure of the shoulder pad, and swivels them. This Option allows each side of the shoulder pad to work independently, creating a more significant range of motion for the athlete.

### Pro-Motion Option.

- Swivel assembly installed in front and back of the main arch.
- Split/swivel drop back plate complements swivel arch.
- Allows for greater mobility and reach.

## Sizing Guide

For best fit measure  
from tip to tip.

Shoulder Measurement	Size
16 - 17"	XS
17 - 18"	S
18 - 19"	M
19 - 20"	L
20 - 21"	XL
21 - 22"	2XL
22 - 23"	3XL
23 - 24"	4XL

# WHY CHOOSE PRO SPORTS GROUP

Pro Sports Group's owners and design team have more than 30 years of experience designing and custom building the highest quality football shoulder pads and accessories. At Pro Sports Group, we are focused on protection, mobility, and fit. Our Performance Fit design follows the natural contour of the shoulders and allows the pad to sit down for a more natural feeling fit. The design team at Pro Sports Group has researched foam and Impact absorbing material quality over the years and has determined we use the highest quality materials available to accommodate our Air Management design, offering the athlete the best protection. We use only the highest American-made construction materials throughout our hands-on building process-this attention to detail results in the most refined custom and non-custom football equipment available.
